**FREE Applicator**  
- see back page

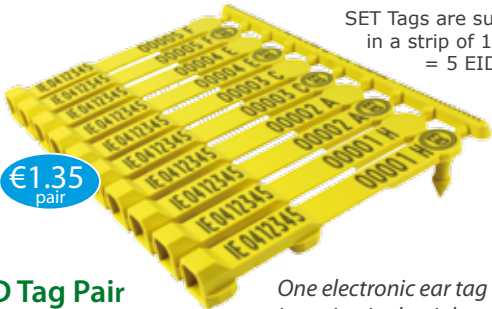

**Dept. grant of up to €100 for first EID Tag order** - see back page

**Free Replacement SET Sheep Tags**  
- when you buy 200 or more pairs (1 visual & 1 EID)

### EID Tags

€1.00

€1.35 pair

SET Tags are supplied in a strip of 10 tags = 5 EID pairs

### Single EID Slaughter Tag

one Electronic SET Tag

*A single electronic slaughter tag (for lambs less than 12 months of age moving directly from the farm of birth to slaughter)*

### EID Tag Pair

One EID SET Tag and one Visual SET Tag

*Electronic tag sets (for all other sheep movements).*

*One electronic ear tag for insertion in the right ear and one conventional (visual) tag in the left ear. Both are yellow and the tag number on each must match.*

**“Switching to Shearwell tags was the best decision I have ever made!”**

**We offer a complete solution** - A complete system - tags, readers and software that work together will help you get the most out of your data. Contact us to see how we can help.

**Electronic tag readers and associated software are included as eligible investments in the TAMS scheme to assist sheep farmers in flock management**

**EID Tags** → **EID Readers**

### Stock Recorder

**Your best animals are paying the bills; your worst ones are costing you money. Do you know which are which?**

Comprehensive data logger and EID Reader. The Stock Recorder is easy to use, rugged and reliable and it helps livestock farmers stay on top of statutory recording. Individual animal information is available out on the farm.

Works seamlessly with our farm management software, FarmWorks by SDL. Please ask for a demo disk.

### Stick Reader

€762

**Rugged and built for hard work. Easy, single-button operation. Reads all EID devices available for livestock – both HDX and FDX.**

Quickly and accurately identify and record animals with electronic IDs. In a pen, in a race or out in the field, simply point and scan – the reader will capture and store the tag number. Data can be transferred by Bluetooth to a PC, a Mac, a Mobile Printer or to our apps. Use our apps, in conjunction with our Stick Reader for easy access to information about your livestock.

### Visual - Management Tags Only

*Coloured, personalised conventional (visual) management tags can be used for various management purposes.*

*Custom print can include, breed code, year born, dam or sire, initials, phone number and more. Please call us for details.*

**Shearwell SET Management Tag**  
one Visual SET Tag

**URGENT ORDERS:** Please contact us. Lead time from order to delivery is 10 days. Prices and information correct on 1st Oct 2018. All prices include VAT and exclude shipping. **POSTAGE COSTS:** Dependent on products ordered - POA. Prices & offers are subject to change without notice. **NOTE:** €100 EID tag grant is issued by the Department.

## NEW Sheep Tagging Legislation - 1 Oct 2018

There is a once-off payment of up €100 per farmer for the purchase of EID tags from 1st October. Sheep farmers will not need to make an application for this funding, as the Department is in a position to use its records to calculate the amount due to each farmer under the scheme.

### PRIOR TO 01 JUNE 2019

- Farmers can use up existing stocks of conventional (visual) tags on lambs that will be slaughtered prior to 01 June 2019.

### FROM 01 JUNE 2019

- Sheep under 12 months of age being moved direct to slaughter from the holding of birth must be tagged with a single electronic slaughter tag applied to the right ear by 9 months of age or when they leave the holding of birth, whichever comes first.
- All other sheep must be tagged with electronic tag sets (pairs). A conventional tag in the left ear and an electronic ear tag in the right ear (or bolus) by 9 months of age or when they leave the holding of birth, whichever comes first.
