*"Nikau Coopworth was an early adopter of Electronic ID. Initially we used the competitors' tags and had repeated disappointments with retention and failed tags. We switched to using Shearwell tags in*

*2012 and have never looked back. No tag failure and nearly 100 % retention. We use the tags as a visual as well and the printed numbers are easy to read. Stud lambs are tagged at day old and the small*

*size of the Shearwell tag is well suited to young lambs."*

# Panel Readers

SDL150 - Large & Small options

- Shearwell's NEW EID Panel Readers - with large and small versions they are suitable for both sheep and cattle. Designed to cope with a high volume of animals.

The EID number can be sent by Bluetooth to a Shearwell app (shown above) or a compatible weigh scale for fast, hands free recording.

Both versions are available as a pair of antennas with a built in reader; as a single antenna with a built in reader; or as an additional antenna.

They can be configured quickly and easily within an existing set-up (non -metallic race) for fast, effortless recording of EID tags as stock run through the chute. Call for more details.
