Working to help the livestock farmer

Shearwell Eligible Products and Prices

The Round 1 application period runs from 16 November 2021 to 7 January 2022.

Full range online   www.shearwell.co.uk

| FETF75 | Electronic Weigh Crate for sheep | Weigh crate with electronic weigh system. The weigh system will be a digital weighing device with the ability to record individual animal weights and track the live weight gains. If the reader relies on a mobile device to input, access and record this information the mobile device must be purchased as part of this item. The system will be compatible for use with EID. Must have the ability to download data to computer or mobile device. A weigh crate must be purchased with this item. If you wish to use an existing crate or combine weighing with another item then you should not include this item in your application. Refer to FETF78 'Individual Electronic Weigh System (all species)' and FETF79 'Weigh bars and weigh platforms for weighing livestock' for weighing system components. | 1,020 |

Shearwell Sheep EID Weigh Crate

£6,400 or £7,980 (with Shearwell X6 Stock recorder)

Recording weights using the Shearwell weighing systems reduces time and provides a fast accurate method of capturing weight information.

Linked by Bluetooth (wireless) to the weigh head, the Stock Recorder will display the current weight; the last three weights with the dates the animal was weighed and the DLWG since the last record and stores the full weight history for the animal.

The reader will read all types of ISO compliant tags and bolus.

Includes:
• Shearwell SDL740C Management Crate
• Load Bars
• EziWeigh7i Weigh Head Indicator
• Shearwell SDL150S EID Race Reader (pair of antennas)
• Shearwell Stock Recorder (optional)

Please Note:
A Shearwell Stock Recorder is required for the management functions of both Shearwell crates.

Prices correct November 2021. All prices exclude VAT and delivery charges.

FETF72	Automatic Weighing and Drafting Crate for sheep	The system purchased must automatically read EID tags and automatically draft out animals based on current weight or any electronically saved data on the animal e.g. age, sex. The system must include: auto drafting crate, control system with fully automated entry and exit gates, weigh bars, panel reader and weigh head. Purchased as a whole working unit (single item), not parts. Refer to FETF78 'Individual Electronic Weigh System (all species)' and FETF79 'Weigh bars and weigh platforms for weighing livestock' for weighing system components.	4,758

Shearwell Auto Drafter

£11,130 or £12,710 (with Shearwell X6 Stock recorder)

Shearwell Data has developed a system using our Stock Recorder and FarmWorks by SDL to enable the farmer to identify and draft animals easily.

Drafts are set up on FarmWorks by SDL software and downloaded onto the Shearwell Stock Recorder. This communicates with the SDL150 race reader, the weigh head and the drafting controller by Bluetooth (wirelessly) and sends the commands to the drafting controller to open and close the relevant gates when a tag is read.

The drafting crate runs off a compressor and can be powered by mains electricity or generator (not included).

The reader will read all types of ISO compliant tags and bolus.

3-way drafter Includes:
• Shearwell SDL720C Pneumatically-Driven Sheep Drafting Crate
• Load bars
• EziWeigh7i Weigh Head Indicator
• Shearwell SDL150S EID Race Reader
(pair of antennas)
• Shearwell Drafting Controller to drive the gates
• Shearwell Stock Recorder (optional)

Please Note:
A Shearwell Stock Recorder is required for the management functions of both Shearwell crates.

Prices correct November 2021. All prices exclude VAT and delivery charges.

FETF81	EID Handheld Recorder Device	EID handheld device with RFID technology for individual reading and recording of animals. The reader must have the ability to record information on breeding, births, weights, treatments and movements as a minimum. If the reader relies on a mobile device to input, access and record this information the mobile device must be purchased as part of this item. The reader must be capable of exporting data to a computer based software package for the active monitoring of livestock.	308

X6 Stock Recorder
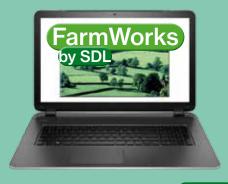

EID Reader and comprehensive data logger

The Shearwell X6 is the next generation handheld Stock Recorder device for cattle and sheep. It provides users with a lightweight, ergonomically designed device to capture on farm management data. It has the same features and easy-to-use interface as the popular Shearwell G4 Stock Recorder and the ability to have new features added via regular updates. With its built-in RFID tag reader, you can use the X6 to record breeding, births, weights, treatments, movements and much more. The X6 is rugged, reliable and easy to use. And more importantly its size enables you to carry it in your pocket, so great when you are out on the farm. Once back in the office it will help you stay on top of your record keeping.

It works seamlessly with FarmWorks by SDL to help you plan and manage your livestock more profitably and to produce accurate, neat records and paperwork that help fulfil your statutory requirements.

Shearwell X6 Stock Recorder

SDL-HHNX6	£1,580

"I used the X6 to move sheep off, change ear tags numbers and record medicines, all worked well. A good investment that's made life easier already."

FarmWorks by SDL

FREE software worth £525 when you buy our Stock Recorder.

Software for PC - communicates with our Stock Recorder and FW mobile app

Comprehensive livestock management program that helps turn livestock data into useful and usable management information.

Helps to identify productive and non-productive animals. FarmWorks by SDL also assists with statutory record keeping, creating official statutory documents and can send movement / birth information to BCMS and movement information to ARAMS.

Complete (Cattle & Sheep)	£525
Cattle only	£375
Sheep only	£375

Includes one year's upgrades and technical support via telephone.

Prices correct November 2021. All prices exclude VAT and delivery charges.

FETF78	Individual Electronic Weigh System (all species)	Digital weighing device with the ability to record and display on screen individual animals' weights, track the live weight gains and access recorded information on an individual animal, for example, breeding and movements. If the electronic weighing system relies on a mobile device to input, access and record this information the mobile device must be purchased as part of this Item. Must have the functionality to operate with EID readers and operate auto drafting systems. It must also have the ability to be connected to a computer or mobile device to download collected information. Weigh bars are not included in this item they are a separate item - see FETF79 'Weigh bars and weigh platforms for weighing livestock' and FETF80 'Weigh bars or platform for animals less than 300 kg'. Group and automatic average animal weighing systems are not eligible under this item.	348

Weigh Heads / Scales

ShearWeigh Weigh Head, X6 and FarmWorks software

The X6 Stock Recorder with the ShearWeigh weigh head provides comprehensive weight recording and drafting functionality including display of daily liveweight gain and the ability to draft with a Shearwell or Te Pari drafting crate or using manually operated gates. The X6 is supplied with FarmWorks by Shearwell Data, providing comprehensive management reporting of a wide range of key animal attributes and the ability to create management groups that can be used to draft, record treatments, easily manage and submit movements and review and compare animal performance.

£2,075

Tru Test EziWeigh7i

Efficiently record and track individual weight gain. Provides hard facts to help you manage your operation with greater certainty and profitability.

£931

Tru Test ID5000

Fully featured Indicator designed to quickly and accurately capture animal weights. Track weight performance, identify poor performers and easily sort animals into groups.

£1,629

Tru Test XR5000

The ultimate Indicator designed to capture a wide range of animal information needed to help make the most of well informed, profitable decisions at the weigh site.

The XR5000 is faster to set up and access information, with a high brightness screen that is clearly visible in the yards. It also has more options to speed up data transfer and increased storage capacity.

£2,094

Prices correct November 2021. All prices exclude VAT and delivery charges.

FETF79	Weigh bars and weigh platforms for weighing livestock	Electronic load bars or electronic weigh platform to operate with digital weigh heads/readers for use with cattle crushes, or batch weighing sheep or pigs. Load bars must be heavy duty (HD) type load bars. The system must be capable of weighing up to 2000 kg (to allow for crush or weigh pen). Non electronic weighing systems are not eligible. Digital weigh heads/readers are a separate item see FETF78 'Individual Electronic Weigh System (all species)'.	440

Load Bars
ShearWeigh Heavy Duty

Shearwell Load Bar features:

- Made from hot-dipped galvanised steel
- Stainless steel IP67 weigh cells and stainless steel fixings.
- Stainless steel feet - designed for use in the harshest of environments.
- Oil/chemical and UV resistant double-insulated shielded flexible cable.

Sheep - 2 tonne capacity
Pair SW600   £800

Cattle - 4 tonne capacity
Pair SW1000   £1,200

Tru Test Multi Purpose

- Easily transported from site to site.
- Compatible with Tru Test and Te Pari weigh heads

- MP 600 - Weighs up to 2,000 kg - Ideal for cattle platforms, sheep platforms, sheep crates, pig platforms, pig crates

- MP 800 - Weighs up to 3,000 kg - Ideal for mobile cattle crushes, cattle platforms, horse platforms, pig platforms, pallet weighing

MP 600
£919

MP 800
£1,006

Tru Test Heavy Duty - HD5T

- Weighs up to 5,000 kg

The HD5T Load Bars are designed to be tough, reliable and easy to install under any crush. The simplicity of set up means you can easily install with no assistance needed.

With a capacity suitable for the heaviest of cattle crushes, you will have outstanding performance with the best weighing set up for your animals.

HD5T
£1,325

Prices correct November 2021. All prices exclude VAT and delivery charges.

FETF80*	Weigh bars or platform for animals less than 300 kg	Electronic load bars or electronic weigh platform to operate with digital weigh heads/readers for use with, sheep races, sheep crates or pig crates. Load bars must be heavy duty (HD)type load bars. The system must be capable of weighing up to 500 kg (to allow for weighing crate) Non electronic weighing systems are not eligible. Digital weigh heads/readers are a separate item see FETF78 'Individual Electronic Weigh System (all species)'.	270

FETF68	EID Panel reader for cattle	Static race reader, with Antenna and Bluetooth connection. Must be able to read HDX and FDX B tags. To be eligible under this item the reader must be permanently fixed to the race or cattle crush. Portable readers are not eligible under this item.	620
FETF74	EID Panel reader for sheep	Static/race reader, with Antenna and Bluetooth connection. Must be able to read HDX and FDX B tags. To be eligible under this item the reader must be permanently fixed to the sheep handling system. Portable readers are not eligible under this item.	531

Shearwell Panel / Race Readers

Modular Shearwell Race Readers - suitable for both cattle and sheep

SDL150S - Small

Our Race Readers can be configured easily within an existing set-up (non-metallic race) for fast, effortless recording of EID tags as stock run through the race. The EID number can be sent by Bluetooth to our apps for fast, hands-free recording.

Small - Pair   £1,550

SDL150L - Large

Our Race Readers can be configured easily within an existing set-up (non-metallic race) for fast, effortless recording of EID tags as stock run through the race. The EID number can be sent by Bluetooth to our apps for fast, hands-free recording.

Large - Pair   £1,700

Prices correct November 2021. All prices exclude VAT and delivery charges.

USEFUL INFORMATION ABOUT THE GRANT

https://www.gov.uk/guidance/farming-equipment-and-technology-fund-round-1-manual/annex-3-eligible-items-specification-and-grant-amount

The Farming Investment Fund (FIF) provides grants to improve productivity and bring environmental benefits.

Farming Equipment and Technology Fund (for grants between £2,000 and £25,000)

The Round 1 application period opens on 16 November 2021 and will close on 7 January 2022.

FETF70	Fixed Sheep Handling Systems	Fixed sheep handling system that should be designed and erected to suit the requirements of the individual site. The system must have a combined capacity in the race, forcing pen, and gathering pen for holding a minimum of 100 adult sheep. To be eligible the system must consist of: a gathering pen, forcing pen, drafting and dosing race, minimum of two side pens and the ability to fit plastic footbath in the race. The handling system must be of all metal construction. Wooden elements, for example, floors to the race, gates or hurdles are not eligible under this item. All ferrous metal work to be either galvanised or powder coated. Painted systems are not eligible. To be eligible the system must be fixed to the ground. This should be a long term fixture such as concreting the supporting post into the ground or by bolting into the existing concrete floor.	1,600

PORTA-YARD

Limited stock £POA

includes:

- 1 x 3.0m (1OF) Trailer Unit
- 20 x 2.1m x 1.0m Alloy Yard Panels
- 4 x 2.4m x 1.0m Alloy/Force Race Panels
- 1 x Alloy U Bow
- 1 x Alloy U Bow c/w 0.9m Hinged Gate
- 1 x Alloy U Bow c/w 2.1m Hinged Gate
- 4 x Alloy L Brace
- 3 x 3 Way Adapters
- 30 x Alloy Yard Pins
