

FarmWorks Installation Guide

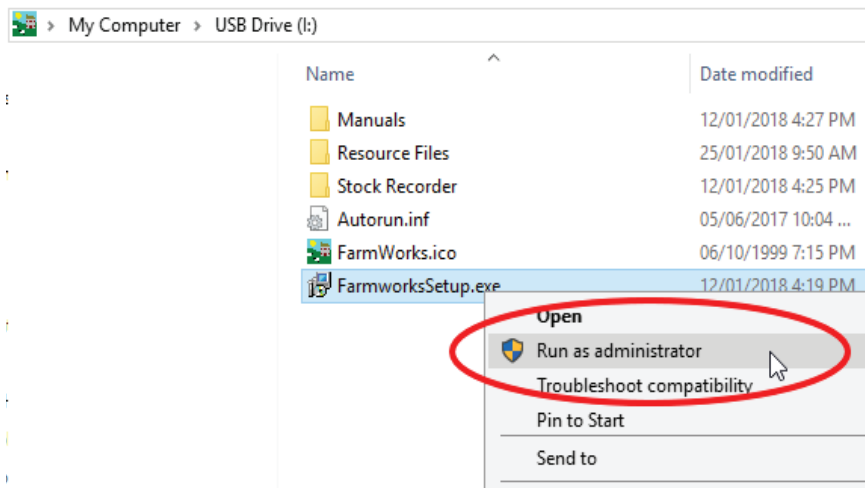

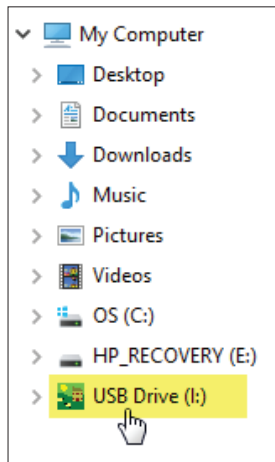

The memory stick you received contains FarmWorks by Shearwell Data, Stock Recorder installation software, and user manuals for both programs.

Install the program on your computer

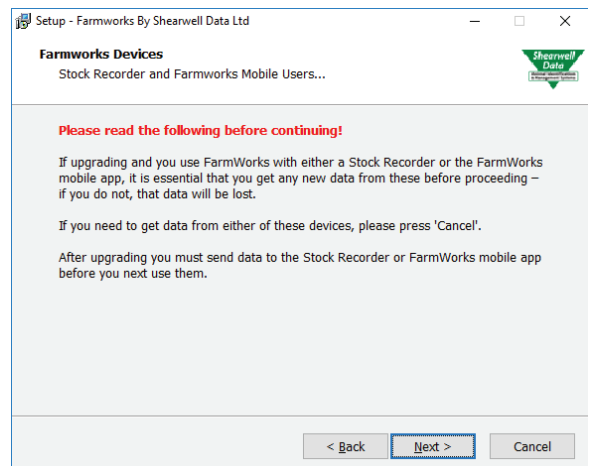

- ▷ Insert your FarmWorks by SDL memory stick into a USB port on your PC.
- ▷ Click on the Start button, then click on **File Explorer**. Find the USB drive.

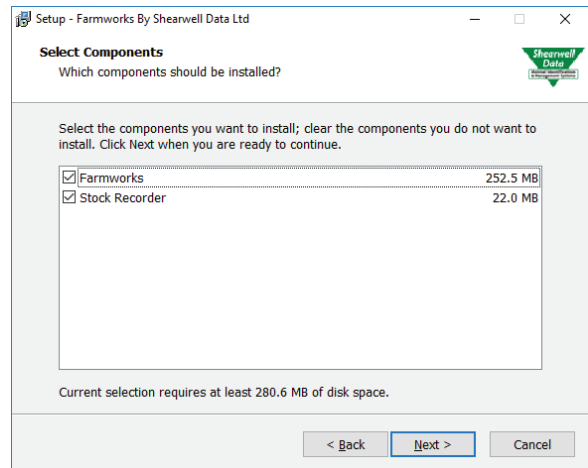

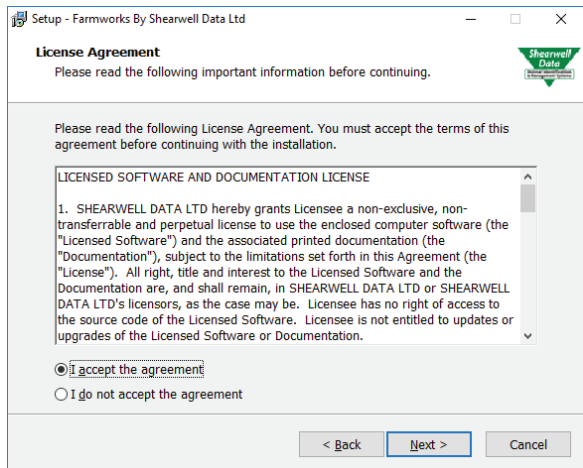

- ▷ Open the FarmWorks USB.
- ▷ With your mouse, right-click on **FarmWorksSetup.exe**.
- ▷ Select **Run as administrator**

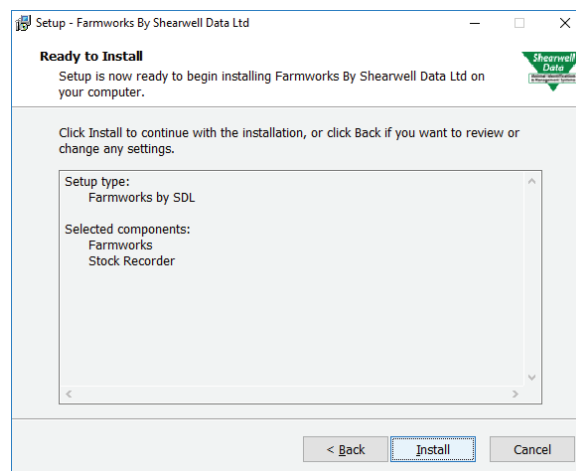

- ▷ Allow the app to make changes to your computer.
- ▷ The first page is the FarmWorks Installation Wizard. Click **Next**.
- ▷ On the second page, if this is a new installation then click **Next**. If it is an upgrade then you must do a data transfer from the stock recorder or FarmWorks Mobile before you proceed.

- ▷ On the License Agreement page tick the box to Accept, and click **Next**.
- ▷ Select components and click **Next**.

- ▷ When you are ready to install, click **Install**.

- ▷ Click **Finish** to exit the installation program.

- ▷ Re-start your computer.
- ▷ Double-click on the FarmWorks icon to open the program. Consult the user manual or QuickStart guide to get going!
